PROFESSIONAL SUMMARY

BCA graduate seeking an entry-level Python Full Stack Developer role, with knowledge of Python, Django, PostgreSQL, HTML5, CSS3, JavaScript and Bootstrap. Practicing backend development and database integration through a Django-based library website, and have completed Python projects including an ATM system and an Employee Management System. Also developed a responsive e-commerce clone with product search, category filtering, signup, cart and client-side data persistence. Interested in building reliable web applications and strengthening full-stack development skills.

TECHNICAL SKILLS

Programming: Python

Backend & Framework: Django

Database: PostgreSQL, SQL (basic database operations)

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design

Tools: Git, GitHub, Visual Studio Code

Other: CRUD concepts, Database Integration, Local Storage

PROJECTS

Library Website — Django Web Application (In Progress)
Technologies: Python, Django, PostgreSQL, HTML, CSS, JavaScript
- Developing a library website using Django with database-backed book and student information.
- Connecting the web application to a PostgreSQL database to store and manage application records.
- Building and testing application pages and data workflows as part of ongoing project development.

Employee Management System — Python Project
Technologies: Python
- Created a Python project to organize employee-related information and management operations.
- Applied Python programming fundamentals and structured program logic to implement the project.

ATM System — Python Project
Technologies: Python
- Developed a Python-based ATM project to represent common ATM operations.
- Practiced conditional logic, user input handling and program flow while implementing the project.

Meesho Clone Website — Responsive E-Commerce Web Application
Technologies: HTML5, CSS3, JavaScript, Bootstrap, JavaScript Local Storage
- Developed a responsive e-commerce interface for product discovery and shopping workflows.
- Implemented product search, category filtering, product details, signup and account-management features.
- Added interactive Add to Cart and Buy Now functionality and used Local Storage for client-side data persistence.
- Designed the interface to support desktop, tablet and mobile screen sizes.

EDUCATION

Bachelor of Computer Applications (BCA) | Jun 2023 – Jun 2026

Kanchi Sri Magalakshmi Arts & Science College for Women | Percentage: 77%

CERTIFICATIONS & ACHIEVEMENTS

- Senior Grade Typewriting in English and Tamil — First Class with Distinction, Government of Tamil Nadu, Department of Technical Education (2022).
- Certificate of Appreciation for academic performance — Kanchi Sri Magalakshmi Arts & Science College for Women.
